

**Keep cool – the variable segment hose system!**

**W NEW NEW NEW NEW NEW NEW NEW NEW NEW**

## **VARIO-Liner – the flexible hose system with inner hose**

Highest flexural rigidity

Flexible

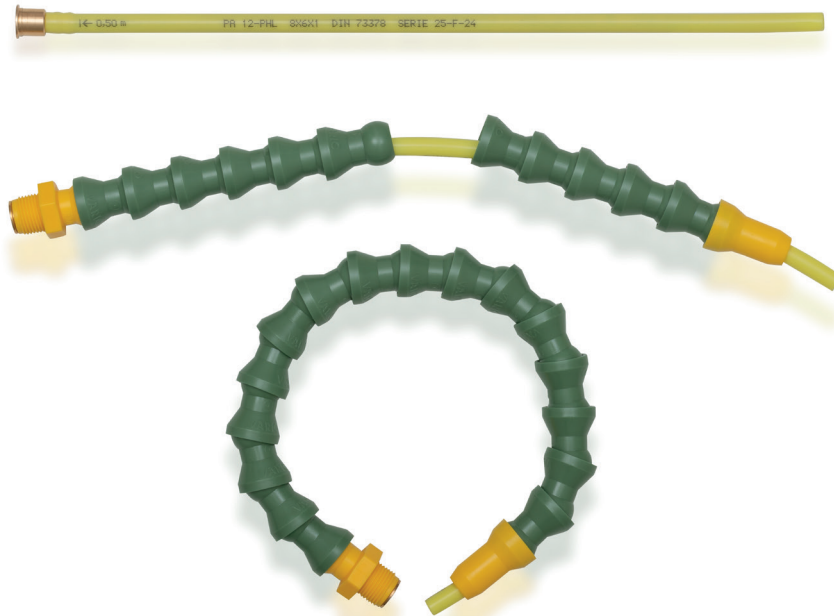

High positional stability

Great media and chemical resistance

Smooth inner surface for optimal flow behavior

Significantly increased pressure resistance

## Available in two types

- ➔ One side open, pressure resistant up to 15 bar\*, available as 1/4", 1/2" and 3/4" system in variable lengths
- ➔ Both sides with threaded connection, up to 30 bar\* pressure resistant, available as 1/2" system in lengths up to 900 mm
